

Kit List for Canoe Bushcraft Day

Tips for your trip

To Wear:

- Old trainers or similar (something you can swim in and will stay on your feet)
- Waterproofs (at least an anorak in case it rains, ideally waterproof trousers too)
- Warm top (even in summer, if the sun goes in it can get cold)
- Warm trousers (avoid jeans if possible)
- Hat (in summer a baseball cap or similar and if cold a woolly hat)
- Gloves (in cold weather)

To take (dry barrel):

- Spare clothes
- Towel
- Drinking water. For full day trips at least 1 litre per person, (we don't supply cups)
- Food (biscuits etc are good. Try to avoid fresh items like chicken, fish etc that could spoil in the hot sun). We can supply ration packs if required.
- Any medication and allergy medicine (i.e. inhalers, epipens etc)
- Spare trainers or boots (for after the activity)

We provide:

- Canoes, PFD's, paddles, helmets etc
- Knives, fire steels, folding saws

We provide dry barrels and dry bags so you can keep your spare kit dry.

- ✓ *If possible avoid wearing wellington boots (difficult to swim in).*
- ✓ *If you wear glasses it's a good idea to tie some string to them.*
- ✓ *If it's summer, then sun screen is a good idea.*
- ✓ *Avoid taking expensive electronic devices or jewellery in the canoe.*

If you are unsure please don't hesitate to ask!
